### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on December 21, 2004 has been entered.

2. It is noted that none of the references cited in the international search report teaches or fairly suggest a method of producing an ophthalmic device utilizing the specific polymeric composition set forth in the present invention. Since there is no corresponding PTO 1449 form provided, there will be no initialed PTO 1449 form to be sent to Applicants. Instead, the references in the international search report are included in a PTO 892 form.

### ***Examiner's Amendment***

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as

Art Unit: 1712

provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, after the title, replace "This application is a divisional application of prior Application Serial No. 10/004,418 filed November 2, 2001." with -- This application is a divisional application of prior Application Serial No. 10/004,418 filed November 2, 2001, now U.S. Patent No. 6,864,341. --.

*Allowable Subject Matter*

4. Claims 24 and 26 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The present claims are allowable over the closest references for at least the following reason(s): Okawa (US 5 223 596), Cekada (US 3 624 190) and Lai (US 5 034 461).

Okawa does not teach or fairly suggest a polydiorganosiloxane having  $R_2R_3SiO_{2/2}$  units, where  $R_2$  is independently a  $C_{1-10}$  alkyl,  $C_{1-C10}$  fluoroalkyl or a  $C_{2-20}$  alkyl-fluoroalkyl group and  $R_3$  is independently a  $C_{6-30}$  aromatic group, e.g., a diphenylsiloxane-dimethylsiloxane copolymer. Furthermore, in the instant claims,

Art Unit: 1712

the number of  $R_2R_3SiO_{2/2}$  units must be a natural number greater than 4. In addition, Okawa does not teach or fairly suggest a method of producing an ophthalmic device using a polymeric composition produced from the polydiorganosiloxane.

Cekada does not teach or fairly suggest that the polydiorganosiloxanes being end-capped with hydroxyalkyl groups or aminoalkyl groups or having methylphenylsiloxane units. In addition, Okawa does not teach or fairly suggest a method of producing an ophthalmic device using a polymeric composition produced from the polydiorganosiloxane.

Lai discloses a polydiorganosiloxane end-capped with hydroxyalkyl groups represented by formula c) (col. 3, line 44 to col. 4, line 50, col. 6, lines 2-7 and 31-43). However, Lai does not teach or fairly suggest a method of producing an ophthalmic device using a polymeric composition produced from the specific polydiorganosiloxane set forth in the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
